

## Are you solving **traffic** problems?

- 1 Traffic intensity?
- 2 Planning closures?
- 3 Traffic survey?
- 4 Occupancy of parking spaces in different zones?

operational

- 1 Crossing the intersection at a red light?
- 2 Driving in the opposite direction?
- 3 Parking in a no-parking zone and a no-stopping zone?
- 4 Parking in prohibited zones?

security

We have a **tool**, for you that will solve your problem

- 1 Detection and frequency of traffic jams
- 2 Statistical data on the passage of vehicles through a specific location
- 3 Counting and evaluating vehicles from image data
- 4 Parking space occupancy statistics

operational

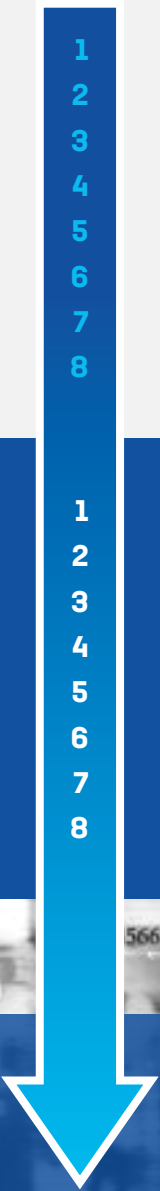

- 1 Red light crossing detection with vehicle identification
- 2 Detection of driving in the opposite direction
- 3 Detection of the presence of a vehicle in a no-parking zone and a no-stopping zone
- 4 Detection of a stationary vehicle in a prohibited zone

security

## Are you solving **security** problems?

- 1 Aggressive behavior with personal injury?
- 2 Vandalism, Graffiti?
- 3 Black dumps?
- 4 Crowding?
- 5 Damage to monuments or city property?
- 6 Unauthorized entry into city buildings?
- 7 Violation of visitor regulations (sports field and playgrounds) after closing time?
- 8 Statistics of non-standard behavior?

- 1 Detection of fight and a fall of persons
- 2 Detection of damage to a foreign object
- 3 Detection of foreign objects in a defined zone
- 4 Detection of the presence of a large number of people in a defined place
- 5 Detection of damage to guarded property
- 6 Detection of crossing the fence and breaking into the object
- 7 Detection of people entering defined areas during prohibited times
- 8 Outputs from non-standard events in graphic data

We have a **tool**, for you that will solve your problem

### Advantages of the **Modular Tool**?

- ✓ The possibility of gradually expanding the tool (transport and safety modules)
- ✓ Continuous development based on experience gained from applied solutions
- ✓ The possibility of custom development according to defined needs
- ✓ Czech manufacturer and Czech development
